

FROM THOUGHT TO PARTY

We guide and advise you all the way to and through your party

You are considering and have given some thought to your upcoming party at Solyst

Each party will be tailored to your specific needs

We will find a suitable date for your party, and we are ready to meet you at Solyst

At our first meeting, we align our expectations, wishes and thoughts, and you help put together the menu and the rest of the party

Subsequently, you will receive a playbook for your party, which we then adjust continuously

We can help with everything from place cards, photographer, music, flowers, etc.

Once we have the template for your party, just invite your guests and make a table plan.

You have your own personal party planner throughout the process

If there's something you haven't thought about, we will

We look forward to being part of your next party.
