

# WEDDING INSPIRATION

*For generations, Sølyst has formed a beautiful and atmospheric setting for weddings. We pride ourselves that you as a bridal couple get exactly the day you dream of and are happy to help with recommendations for your big day.*

*We know that couples and needs differ, but we also know that it can be helpful with recommendations ranging from choosing a photographer, entertainment and music to hotel accommodation. We have many partners who know our house well, and we take care of all the practicalities on the day, so you just have to sit back and enjoy each other and not least the day.*

## FLOWERS

*All of Sølyst's floral decorations are carefully arranged by the house's housekeeper. For special occasions, we also collaborate with a select group of florists when a floral expression beyond the ordinary is desired. This could, for example, be an impressive showpiece where the flowers rise above the table, or more grand and extravagant floral creations for both the table and each individual place setting. The possibilities are many.*

## WEDDING TRANSPORT

*Whether you dream of arriving at the red carpet at Sølyst in a beautiful closed horse-drawn carriage, a classic wedding car, a vintage car or a limousine, we are happy to help.*

## ACCOMMODATION

*At Sølyst, we are unfortunately not able to provide hotel accommodation, but Sølyst is only about 12 km north of Copenhagen, so getting back and forth to Copenhagen is relatively easy and quick. However, we highly recommend a few cozy hotels that are situated relatively close by.*
